

Ashima Chopra

I am a dedicated and curious student currently pursuing Bachelors of Technology. I am a keen observer and efficient at achieving any given tasks. Apart from being at par in academics I am also an active part of Entrepreneurship Cell at my college and voluntary organisation PRAYAS CORPS. My new found interests have also enabled me to look beyond the concepts of my course and thus, I am also pursuing Diploma in Marketing Management. Also, I am doing a diploma in French Language to explore my horizon globally in future.
